Disciplinary Focus Feedback

Score: 3/3 - Pass

Date: September 30, 2026

The software focus is justified: closed-loop sensing and control, coordination of damping and electrical stimulation, and the companion app are software engineering contributions.

Required improvements:

- Add references, especially in the motivation section.

- Include HCI and UX in the educational background section.

Rubric: 1/1 for educational background, expected contributions, and design aspects.
