Graded Meeting Feedback - Engineering Design Quality 1

Team 19

Score: 82/100 (82%)

Date: November 6, 2026

- Good stakeholder identification.
- Discuss more quantitative requirements and design inputs.
- Explain the reasoning behind design decisions.
- Every team member should understand and be able to discuss different parts of the project.
- Provide a clearer proof-of-concept plan.

The activities evaluation applies to all group members.
